

FIGHT GERMS

1) Cover your mouth when you cough or even when you sneeze cover your nose because no one wants to get your germs.

Wash hands
and
Stop germs

2) If you cough or sneeze you must wash your hands straight after because if you don't you will have heaps of germs.

3) You can use hand sanitizer, if you can't be bothered to get up and wash your hands because hand sanitizer can get rid of germs as well.

KEEP CALM
SAVE A LIFE
BY
WASHING YOUR
HANDS

Antibiotics are medications that fight infections caused by bacteria. Taking antibiotics when you have a virus may do more harm than good. Taking antibiotics when they are not needed increases your risk of getting an infection later that may resist antibiotic treatment.
